Documentation utilisateur EasySave Remote EN

1 - Main menu :

When you start the application, you will be greeted by the main menu. This will allow you to choose between 3 options:

- **PLAY:** Allows you to start a backup job.
- **PAUSE:** Allows you to pause a backup job.
- **STOP:** Allows you to stop a backup job.

The list of Jobs is also present. You can select a Job to start, pause or stop the backup job.

A progress bar is displayed and allows you to visualize the progress of the backup job.

A refresh button is also present. This allows you to refresh the list of Jobs.

2 - PLAY:

To start a backup job, you must select a Job in the list of Jobs. You can then click on the PLAY button. The progress bar is displayed and allows you to visualize the progress of the backup job.

3 - PAUSE:

To pause a backup job, simply press the PAUSE button. The progress bar will stop and allow you to visualize the progress of the backup job.

4 - STOP:

To stop a backup job, simply press the STOP button. The progress bar will stop.
